Bayside Elementary (right) and Oneonta Elementary schools, both based in Imperial Beach, have undergone various renovations. Those include libraries, administration offices, new windows, kitchens and multi-purpose buildings. "Proposition X renovations are ensuring that our students are in healthy and safe classrooms for generations to come," said Carol Parish, South Bay Union School District superintendent.

Renovations to Imperial Beach schools under way

By CARLOS RICO
The Daily Transcript

Students at Imperial Beach area Bayside Elementary and Oneonta Elementary were greeted with new and renovated campuses this new school year.

Thanks to Proposition X, a \$59.4 million school bond measure approved by South Bay voters in November 2008 to renovate schools in the South Bay Union School District, Bayside and Oneonta ele-

mentary schools were able to receive much-needed repairs.

Students and staff at Bayside and Oneonta Elementary now have state-of-the-art libraries, modernized administration offices and multi-purpose buildings.

Improvements to these schools include new windows, renovated kitchens, refurbished bathrooms and handicap accessibility upgrades.

The schools also have new fencing, electrical upgrades, new fire alarm

systems and PA systems to help improve student safety, according to the school district.

"Proposition X renovations are ensuring that our students are in healthy and safe classrooms for generations to come," said South Bay Union School District Superintendent Dr. Carol Parish. "Students remain our first priority at the district and we are committed to creating learning environments in which they can excel."

Classroom buildings are currently receiving the finishing touches on renovations, including the installation of interactive white boards, to ensure that students are learning in technologically modernized classrooms, according to the district.

The first of these buildings are scheduled to be complete by early October with remaining classrooms reaching completion by December 2010.
